

TECHNICAL SKILLS

Frontend: HTML, CSS, Javascript, React, Next.js, Typescript, TailwindCSS **Backend:** Node JS, Express, Socket.io, PostgreSQL, GraphQL, SQL, NoSQL, MongoDB, Prisma, TypeORM, GoogleCloud, Firebase, AWS, Python **Test:** Cypress, Jest

Expertise: UI/UX Design & Implementation, Problem-solving & Analytical Thinking, Effective Communication & Team Collaboration

EMPLOYMENT HISTORY

Where You At? - Full Stack Developer

September 2023 - September 2024

NextJS NestJS TypeORM SQL Git Typescript

- Enhanced performance and maintainability by migrating to Next.js 14 with React, TypeScript, using Higher-Order Components and Server Side Components, leading to faster load times and efficient development processes.
- Implemented ShadCN and compound component patterns to build custom UI elements, enhancing both the intuitiveness and visual appeal of the interface.
- Improved codebase reliability and scalability by optimizing legacy code using SOLID principles, significantly reducing bugs and future maintenance efforts.
- Enhanced backend efficiency and robustness with error handling, validation, authorization and authentication leading to better API response times and overall system stability and security
- Increased application reliability through comprehensive E2E tests with Cypress, reducing bug-related incidents.
- Demonstrated strong leadership and problem-solving skills by addressing operational challenges and enhancing team productivity

Arol.dev - Full Stack Developer - Barcelona

February 2023 - September 2023

NextJS React GraphQL PostgreSQL MongoDB Git Typescript Express PrismaORM Docker

Developed multiple full-stack applications using various technologies:

- **Voyago AI:** Led the development of an AI-powered application using Next.js 14, TypeScript, Tailwind CSS, Prisma ORM, Docker, and PostgreSQL, OpenAI API, GoogleMaps API.
- **Coffee Career Accelerator:** Utilized React, TailwindCSS, Express, Prisma ORM, and PostgreSQL to build a dynamic career development platform.
- **Fistbump 360 Peer Review:** Implemented MongoDB, Apollo Server, GraphQL, Next.js 13, and TypeScript to create a peer review system.
- Showcased adaptability and quick learning in mastering new technologies and frameworks.

Coffee Roaster Manager & Web Developer - Lisabon

March 2021 - December 2022

Wordpress Squarespace Shopify Web Development Leadership Management

- **Business Development:** Managed a coffee roastery, increasing sales by 15% and brand visibility through strategic marketing and service offerings.
- **Web Development:** Created websites using WordPress and Squarespace, enhancing online presence and customer engagement by 30%
- **Operational Leadership:** Streamlined production, sales, and staff training, improving efficiency and customer satisfaction
- **Sales & Customer Relations:** Boosted revenue and client loyalty through effective communication and sales techniques by 20%
- Demonstrated strong leadership and management skills in overseeing day-to-day operations.
- Applied excellent customer service skills to build and maintain strong client relationships.

EDUCATION

Arol Dev (Barcelona, Spain) - Software Engineering Mentorship

2023

Social Science (Zagreb, Croatia) - Bachelor of Science (BS), Sociology

2010 - 2014
