HRVOJE VINCEK

TECHNICAL SKILLS

Frontend: HTML, CSS, Javascript, React, Next.js, Typescript, TailwindCSS **Backend**: Python, Node JS, Express, Socket.io, PostgreSQL, GraphQL, SQL, NoSQL, MongoDB, Prisma, TypeORM, GoogleCloud, Firebase, AWS, **Test**: Cypress, Jest

Expertise: UI/UX Design & Implementation, Problem-solving & Analytical Thinking, Effective Communication & Team Collaboration

EMPLOYMENT HISTORY

Where You At? - Full Stack Developer - London   **September 2023 - September 2024**
NextJS NestJS TypeORM SQL Git Typescript

- Led the migration to Next.js 14 with TypeScript, reducing load times by 30%
- Architected and implemented scalable UI components using ShadCN and compound component patterns, significantly enhancing the user interface's visual appeal and intuitiveness
- Enhanced backend architecture by implementing robust error handling, validation, authorization, and authentication mechanisms, increasing API response efficiency by 20%
- Directed end-to-end testing with Cypress, increasing application reliability and reducing post-release defects by 40%

Voyago AI - Full Stack Developer - Barcelona   **April 2023 - September 2023**
NextJS Node Supabase PostgreSQL Express Typescript

- Designed and integrated AI-driven systems using OpenAI APIs for LLM-based data parsing
- Led integration of Google Maps API and Google Places API to provide real-time location data and enhance the overall user experience
- Engineered user authentication systems using NextAuth with third-party integration via Google OAuth

Arol.dev - Full Stack Developer Bootcamp - Barcelona   **December 2023 - April 2023**
NextJS React GraphQL PostgreSQL MongoDB Git Typescript Express PrismaORM Docker

Developed multiple full-stack applications using various technologies:
- Coffee Career Accelerator: Utilized React, TailwindCSS, Express, Prisma ORM, and PostgreSQL to build a dynamic career development platform.
- Fistbump 360 Peer Review: Implemented MongoDB, Apollo Server, GraphQL, Next.js 13, and TypeScript to create a peer review system.
- Showcased adaptability and quick learning in mastering new technologies and frameworks.

Coffee Roaster Operation Leader & Web Developer - Lisabon   **March 2021 - December 2022**
Wordpress Squarespace Shopify Web Development Leadership Management

- Led business development and operational strategy, growing sales by 30% through improved marketing and operational efficiency.
- Developed and optimized websites using WordPress and Squarespace, increasing online presence and customer engagement by 30%
- Streamlined operations and team workflows, boosting production efficiency by 25% and significantly improving customer satisfaction

EDUCATION

Arol Dev (Barcelona, Spain) - Software Engineering Mentorship   **2023**

Social Science (Zagreb, Croatia) - Bachelor of Science (BS), Sociology   **2010 - 2014**
